## Firearms statistics

### Operational Policy

The collection of firearm statistics at all customs offices processing travellers importing firearms is required beginning January 1, 2001. Note, the collection of firearms being exported is not a requirement at this time. 

Monthly statistics will allow the agency to assess the impact on customs operations in the regions and fulfill the requirement to report the movement of firearms to the Department of Justice, the lead organization in the implementation of the *Firearms Act*.

A work order has been initiated to collect firearms statistics through the G11 Management Information System, however until such time as this work can be completed, statistics must be collected manually and forwarded to the Firearms Project by the Regional Firearms Coordinators within 10 working days of the end of the month. The Firearms Project will then forward to the Program Administration Division, Business Management Directorate for future input into the automated G11 Management Information System.

- Each customs office processing travellers importing firearms is required to collect daily firearms statistics.
- Daily statistics will be collected using the:
  - Firearm Confirmation Number log for non-licensed non-residents (confirmed declarations); and
  - PIL Daily Firearms Statistics for licensed non-residents, licensed residents 1<sup>st</sup> import and licensed residents re-import, and
  - Daily Firearms Statistics for licensed non-residents, licensed residents 1<sup>st</sup> import, licensed residents re-import, and non-confirmations.

#### **Note**

The PIL Daily Firearms Statistics template was designed to collect firearm statistics at a highway environment. Only statistics on licensed individuals being released on primary should be accounted for on this template. This template could be posted daily in every primary line for all customs officers to records statistics or; each officer may be issued a template daily and be responsible for collecting the statistics.

The Daily Firearms Statistics template was designed to collect firearm statistics in all environments. In most cases, this template would be posted in the secondary area of the office, however each customs officer may be issued a template daily and be responsible for collecting the statistics. Statistics on the number of non-confirmations is to be collected on this template.

The Firearm Confirmation Number Log will be completed by customs officers issuing confirmation numbers to non-residents.

- Daily statistics will be rolled-up and reported monthly on the manual G11 Operations Report by a customs officer responsible for the collection of operational statistics.
- Nil reports are required.
- The manual G11 Operations Report is to be forwarded to the Regional Firearms Coordinator for compilation.
- The Regional Firearms Coordinator will forward the manual G11 Operations Reports for each customs office processing firearms to the Firearms Project by fax to:  
Tanya Smith  
Manager, Firearms Project  
Contraband and Intelligence Services Directorate  
**Fax No. (613) 952-9800**

Appendix F contains the following templates:

- G11 Operations Report and definitions of the column headings and line headings
- PIL Daily Firearms Statistics
